

# State of Wisconsin Department of Public Instruction

**Elizabeth Burmaster, State Superintendent**

---

## **Green and Healthy School Grant**

### **Program Description:**

The Department of Public Instruction and the Department of Natural Resources have coordinated efforts to encourage public and private schools to “lead by example” as they strive to conserve our natural resources and maintain healthy and safe school environments for successful learning and cleaner living. Green & Healthy Schools is a web-based, voluntary program available to all schools across Wisconsin. The program encourages teachers, staff, students, and parents to work together to use the school, its grounds and the community as learning tools to teach, promote and apply healthy, safe and environmentally sound practices.

Under the Green & Healthy Schools Grant Program, schools that have met the criteria for Green & Healthy School recognition and have submitted a completed grant application will be reimbursed for some of the expenditures they may have incurred while creating and/or maintaining a Green & Healthy Schools Program. Eligible expenditures may include, but are not limited to, team work, personal protection equipment, pedestrian and/or parking signs, record keeping supplies, the purchase of monitoring equipment, and recycling signs, decals, and/or containers.

This one-time grant, funded by the Department of Natural Resources through the Department of Public Instruction, is only applicable for expenditures incurred during the 2005-06 school year. Schools that have previously received a Green & Healthy Schools Grant are not eligible to apply. A total of \$20,000 is available. The awards will be pro-rated dependent upon the number of schools that apply for the grant, and the maximum award per school would be \$1,000. Grant applications must be postmarked before or on May 1, 2006, and grant awards will be distributed by May 31, 2006.

### **Eligibility and Grant Application:**

1. Participation is open to all public and private elementary, middle and high schools across Wisconsin.
2. A one-page grant application letter must be submitted, along with the school's application to become a Green & Healthy School, prior to May 1, 2006. The grant application letter must include the following:

- a. the signature of their Green & Healthy Team leader and the school principal,
  - b. a statement that the school would agree to be a resource for other schools who have pledged to become a Green & Healthy School,
  - c. a statement that allows the Department of Public Instruction and the Department of Natural Resources to share the school's experiences on the Green & Healthy Schools web site and in other promotional settings, and
  - d. a second page listing the type of service or purchase and the corresponding expenditure(s) incurred to gain recognition as a Green & Healthy School, up to \$1,000.
3. Applications may be submitted to:  
Elizabeth E. Kane  
Department of Public Instruction  
125 S. Webster Street  
P.O. 7841  
Madison, WI 53707-7841
